5 3/60 cat has "Nurserymen since 1876" on cover

PIERIS JAPONICA

CRAPE MYRTLE, RED

TERMS—Cash, unless you have established credit with us.

LIABILITY—Orders are accepted subject to stock on hand and unsold, with the understanding that they shall be void should injury befall the stock from flood, drought, fire, frost, or should our operations be impaired by labor shortage or any other condition beyond our control.

GUARANTEE—We will resupply one time, without cost, plants that die prior to June 1st following date of planting.

We will resupply one time, at one-half price, plants that live through June 1st following date of planting but die prior to one year after original planting date. The above guarantee does not cover planting in June, July and August, which is guaranteed for only 30 days.

All guarantees are predicated on the assurance by the purchaser that the plants have been properly cared for and that the plants have been paid for within 30 days of the date of planting.

Absolutely no claims for full replacements will be considered after June 1st following date of purchase.

HEIGHT AND CALIPER—Height of plants is considered from the ground level to the tip of the plant. (Does not include ball of earth.)

In low-growing varieties of plants, spread is considered instead of height. Caliper is the method used for measuring larger deciduous trees. Caliper is the diameter of the tree at a point one foot above the ground.

WATERING—We have found that more plants are lost from failure to water properly the first year after moving, than from any other cause.

Do not drown the plants, but do see that they get some water (twice a week) from late May until October.

FERTILIZING—Well-rotted manures make fine food for plants. This should always be applied on the surface in a circle around the plant, as a mulch.

Ordinary soil will probably keep your plant healthy and growing. Mulching will greatly aid the plant in its color and vigor, as it also holds moisture around its roots.

BROADLEAF EVERGREENS

There are large numbers of plants in this group. They include a wide variety of sizes, shapes and textures. Within this group you can find a plant suitable for nearly any location. Broadleaf plants are generally very free from disease. They grow best in a moist soil rich in humus and acid.

ABELIA, GLOSSY

Abelia grandiflora

Graceful drooping stems and branches. Dark, glossy leaves. Bell-shaped flowers of white, tinted pink, from May to October.

	Each	Per 25 Each		Each	Per 25 Each
15 to 18 in.	\$2 00	\$1 50	2 to 3 ft.	\$3 50	\$3 00
18 to 24 in.	2 50	2 00	3 to 4 ft.	5 00	4 25

ABELIA, PINK

Abelia, Edward Goucher

A dwarf form of Abelia. Pink blossoms. Very slow in growth.

	Each		Each
15 to 18 in.	\$3 00	18 to 24 in.	\$4 00

AUCUBA, GREEN

Aucuba japonica

Glossy green leaves. Grows in dense shade. Large red berries on female plants in fall. Excellent for arrangements.

Price same as Gold-Dust Aucuba.

AUCUBA, GOLD-DUST

Aucuba japonica variegata

Large glossy leaves spotted with gold. Thrives in shade.

12 to 18 in.	\$3 50	24 to 30 in.	\$6 00
18 to 24 in.	4 50		

BAMBOO, JAPANESE EVERGREEN

Arundinaria japonica

Grows easily, spreads rapidly and makes an effective screen. 6 to 10 feet tall. Canes make straight poles.

Large clump, 3 to 5 canes \$4 50

BARBERRY, JULIANNE EVERGREEN

Berberis julianae

Spiny, glossy green leaves all winter. Yellow flowers in spring. Hardy, erect, compact.

15 to 18 in.	\$4 25	24 to 30 in.	\$6 25
18 to 24 in.	5 25		

Aucuba, Green

BOXWOOD—Virginia Grown

Boxwood has long been one of our specialties, for it has been and still is the most practical, durable and beautiful plant that can be used, quite aside from its sentimental and historic value in association with Virginia. Its use will add dignity and charm to any home or garden. We have several hundred thousand plants in the various sizes of our own growing, besides a quantity of specimen collected plants of both dwarf and bush types.

BOXWOOD, BUSH*Buxus sempervirens*

Small, elongated, dark green leaves. Compact and glossy. Thrives in shade.

	Each		Each
10 to 12 in.....	\$2 50	24 to 27 in.....	\$10 00
12 to 15 in.....	3 50	27 to 30 in.....	12 50

EUONYMUS, EVERGREEN*Euonymus japonicus*

Deep green, shiny foliage. Compact growth. Thrives in sun or shade.

Each		Each	
15 to 18 in.....	\$2 50	24 to 30 in.....	\$4 25
18 to 24 in.....	3 25		

EUONYMUS, VARIEGATED*Euonymus japonicus variegatus*

Bright evergreen shrub with leaves mottled yellow. Hardy.

12 to 18 in.....	\$2 75	24 to 30 in.....	\$4 50
18 to 24 in.....	3 50		

EUONYMUS, BIGLEAF WINTERCREEPER*Euonymus fortunei vegetus*

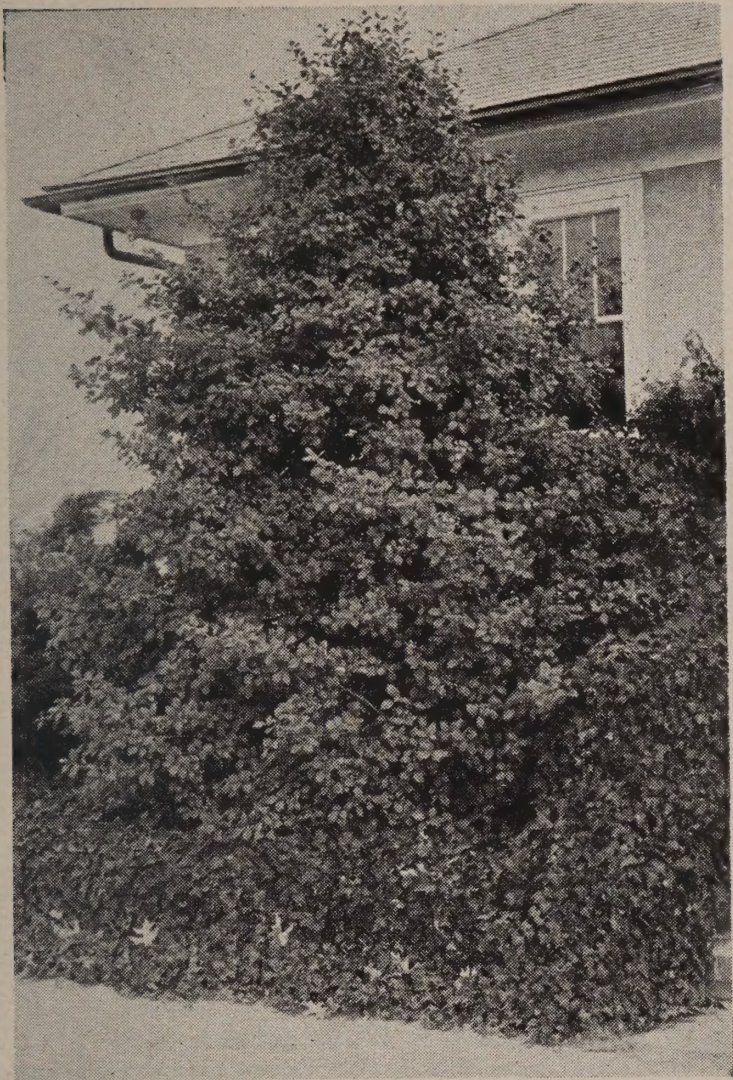

Large, light green leaves. Rapid growing. Low, spreading plant.

18 to 24 in.....	\$2 50	2 to 3 ft.....	\$3 00
------------------	--------	----------------	--------

EURYA*Eurya japonica*

Greenish white flowers in fall. An unusual plant.

15 to 18 in.....	\$4 00	18 to 24 in.....	\$6 00
------------------	--------	------------------	--------

Holly, American

THE HOLLIES

This year we are offering a more complete selection of Hollies than we have ever had before. The past growing season has been wonderful. We can furnish well-branched stocky Hollies that are sure to thrive. Because of the diversity of foliage and the variety of plant forms, these evergreen Hollies are among the best landscape material that can be used. These plants are entirely hardy in this area.

HOLLY, AMERICAN

Ilex opaca femina

Broad, shining, spiny leaves. Bright red berries in winter.			
	Each		Each
2 to 3 ft.	\$6 00	5 to 6 ft.	\$18 50
3 to 4 ft.	8 50	6 to 7 ft.	25 00
4 to 5 ft.	14 00		

Large specimen plants priced at the nursery.

HOLLY, EAST PALATKA

Ilex opaca, East Palatka

Free-berrying variety of American Holly. Small glossy green leaves, one spined.			
2 to 3 ft.	\$6 00	5 to 6 ft.	\$18 50
3 to 4 ft.	8 50	6 to 7 ft.	25 00
4 to 5 ft.	14 00		

HOLLY, HOWARD'S*Ilex opaca howardi*

An American Holly variety with shiny dark green foliage and fewer spines on leaves. Red berries.

Each		Each	
2 to 3 ft.	\$6 00	5 to 6 ft.	\$18 50
3 to 4 ft.	8 50	6 to 7 ft.	25 00
4 to 5 ft.	14 00		

HOLLY, BURFORD OR CHINESE*Ilex cornuta burfordi*

Handsome plant with lustrous green leaves and large red berries.

15 to 18 in.	\$4 50	24 to 30 in.	\$9 50
18 to 24 in.	6 50	30 to 36 in.	13 00

Large specimen plants priced at the nursery.

HOLLY, CHINESE*Ilex cornuta*

Large, spiny, dark green, glossy leaves. Red berries on pistillate plants.

15 to 18 in.	\$5 00	24 to 30 in.	\$10 50
18 to 24 in.	7 50	30 to 36 in.	14 00

Large specimen plants priced at the nursery.

HOLLY, CHINESE DWARF*Ilex cornuta rotunda*

Slow-growing, spreading plant with spiny leaves.

12 to 15-in. spread.	\$5 00	18 to 24-in. spread.	\$9 00
15 to 18-in. spread.	7 00		

HOLLY, DAHOON*Ilex cassine*

Long, narrow leaves of light green. Red berries in profusion. Erect in growth.

2 to 3 ft.	\$5 00	4 to 5 ft.	\$14 00
3 to 4 ft.	9 00		

HOLLY, CONVEXA OR BULLATA*Ilex crenata convexa (bullata)*

Small, glossy, convex leaves. Dwarf.

12 to 15-in. spread.	\$3 50	21 to 24-in. spread.	\$7 25
15 to 18-in. spread.	4 50	24 to 30-in. spread.	9 00
18 to 21-in. spread.	5 75		

Holly, Convexa or Bullata

Ilex crenata helleri

HOLLY, HELLER'S

Ilex crenata helleri

A dwarf, compact form of Japanese Holly. Fine foliage.

	Each		Each
6 to 8-in. spread . . .	\$2 50	15 to 18-in. spread . . .	\$5 50
8 to 10-in. spread . . .	3 00	18 to 21-in. spread . . .	8 00
10 to 12-in. spread . . .	3 75	21 to 24-in. spread . . .	10 50
12 to 15-in. spread . . .	4 50		

HOLLY, KINGSVILLE

Ilex crenata Kingsville

Small pointed leaves, similar to Heller's Holly but a little more upright.

10 to 12-in. spread . . .	\$4 50	12 to 15-in. spread . . .	\$5 50
---------------------------	--------	---------------------------	--------

HOLLY, JAPANESE ROUNDEAF

Ilex crenata rotundifolia

Dark green foliage, summer and winter. Leaves round. Hardy.

12 to 15 in.	\$3 25	21 to 24 in.	\$6 25
15 to 18 in.	4 25	24 to 30 in.	7 50
18 to 21 in.	5 25	30 to 36 in.	12 50

HOLLY, JAPANESE SMALL-LEAF

Ilex crenata microphylla

Dense evergreen with small, box-like leaves.

12 to 15 in.	\$3 50	21 to 24 in.	\$7 25
15 to 18 in.	4 50	24 to 30 in.	9 00
18 to 21 in.	5 75	30 to 36 in.	13 50

HOLLY, REPANDENS*Ilex crenata repandens*

Foliage similar to Small-leaf Japanese Holly. Has low, spreading habit of growth.

Each		Each	
12 to 15-in. spread.	\$3 50	18 to 21-in. spread	\$5 75
15 to 18-in. spread.	4 50	21 to 24-in. spread	7 25

HOLLY, INKBERRY*Ilex glabra*

Native plant with lustrous green foliage and black berries.

18 to 24 in.	\$4 50
--------------	--------

HOLLY, ENGLISH *Ilex aquifolium pyramidalis femina*

Lustrous, dark green, spiny leaves. Red berries.

24 to 30 in.	\$11 00	36 to 42 in.	\$17 50
30 to 36 in.	14 00		

HOLLY, PERNY*Ilex pernyi*

Small, spiny leaves. Slender, upright growth. Red berries on female plants.

18 to 24 in.	\$8 50	30 to 36 in.	\$14 00
24 to 30 in.	11 00		

HOLLY, WILSON*Ilex aquifolium wilsoni*

Large-leaf English Holly. Much more glossy and showy.

18 to 24 in.	\$9 50	24 to 30 in.	\$12 50
--------------	--------	--------------	---------

HOLLY, YAUPON*Ilex vomitoria femina*

Native shrub that may be sheared to any form. Small red berries in winter.

18 to 24 in.	\$4 50	24 to 30 in.	\$7 00
--------------	--------	--------------	--------

HOLLY, YAUPON DWARF*Ilex vomitoria nana*

Low spreading plant. Growth similar to Heller's Holly. Has grayish stems and grayish cast to the leaves.

12 to 15-in. spread.	\$5 50	18 to 24-in. spread.	\$10 00
15 to 18-in. spread.	7 00		

HONEYSUCKLE, PRIVET*Lonicera pileata*

Dense, low-spreading plant. Small leaves. Unusual.

18 to 24-in. spread.	\$5 00	24 to 30-in. spread	\$6 50
----------------------	--------	---------------------	--------

LAUREL, CHERRY*Prunus caroliniana*

Native broadleaf evergreen. Pointed, glossy leaves. Prune to desired shape.

4 to 5 ft.	\$9 00	6 to 7 ft.	\$17 50
5 to 6 ft.	12 00		

LAUREL, ENGLISH *Prunus laurocerasus (officinalis)*

Large, broad, glossy, dark green leaves.

15 to 18 in.	\$3 00	30 to 36 in.	\$7 00
18 to 24 in.	4 00	3 to 4 ft.	9 00
24 to 30 in.	5 50		

LAUREL, SCHIPKA *Prunus laurocerasus schipkaensis*

Deep green leaves, dense, spreading habit of growth.

18 to 24 in.	\$5 00	24 to 30 in.	\$7 00
--------------	--------	--------------	--------

Laurel, Mountain or Calico-Bush

LAUREL, MOUNTAIN OR CALICO-BUSH*Kalmia latifolia*

Thick, waxy leaves. Pink and white buds; white flower cups.

	Each		Each
18 to 24 in.	\$5 00	2 to 3 ft.	\$7 50

LEUCOTHOE, DROOPING*Leucothoe catesbaei*

Graceful, glossy green leaves on arched branches. Spikes of small white flowers in spring.

15 to 18-in. spread	\$4 50	18 to 24-in. spread	\$6 50
---------------------	--------	---------------------	--------

LIGUSTRUM, JAPANESE PRIVET*Ligustrum japonicum*

Upright, large, pear-shaped leaves. Fast grower. Used for screening.

2 to 3 ft.	\$3 00	4 to 5 ft.	\$6 50
3 to 4 ft.	4 50	5 to 6 ft.	9 00

Leucothoe, Drooping

Ligustrum Lucidum, Waxleaf

LUCIDUM, CRINKLY-LEAF

Ligustrum lucidum recurvifolium

Leaves dark green, crinkled.

	Each		Each
12 to 18 in.....	\$3 00	24 to 30 in.....	\$5 00
18 to 24 in.....	4 00	30 to 36 in.....	6 50

LUCIDUM, WAXLEAF

Ligustrum lucidum

Bright, shiny leaves. Fast growing. Pruning makes it compact. White flowers in spring.

12 to 18 in.....	\$2 50	30 to 36 in.....	\$6 00
18 to 24 in.....	3 25	3 to 4 ft.....	8 00
24 to 30 in.....	4 25		

MAGNOLIA, SOUTHERN

Magnolia grandiflora

Large tree. Large white flowers. Leaves thick, glossy green.

3 to 4 ft.....	\$8 00	6 to 7 ft.....	\$25 00
4 to 5 ft.....	12 00	7 to 8 ft.....	35 00
5 to 6 ft.....	17 00		and up

Prices are for average plants. Selected specimen plants and larger plants priced according to value.

MAGNOLIA, SWEETBAY OR SWAMP LAUREL

Magnolia virginiana

Native tree. Leaves silvery underneath. Fragrant white flowers.

4 to 5 ft.....	\$10 00	6 to 7 ft.....	\$20 00
5 to 6 ft.....	15 00		

MAHONIA, LEATHERLEAF

Mahonia bealei

Yellow flowers in early spring. Heavy, leather-like leaves.

18 to 24 in.....	\$5 50	24 to 30 in.....	\$7 50
------------------	--------	------------------	--------

Nandina, Heavenly Bamboo

NANDINA, HEAVENLY BAMBOO *Nandina domestica*

Colorful foliage in winter, with red berries. Very hardy.

	Each		Each
15 to 18 in.....	\$3 00	30 to 36 in.....	\$6 50
18 to 24 in.....	4 00	3 to 4 ft.....	8 50
24 to 30 in.....	5 00		

OSMANTHUS, FORTUNE'S *Osmanthus fortunei*

Large, lustrous, spiked leaves. Small, fragrant, white flowers.

Price same as Holly Osmanthus.

OSMANTHUS, HOLLY *Osmanthus ilicifolius*

Holly-like leaves. Small white, fragrant flowers in fall.

18 to 24 in.....	\$4 50	30 to 36 in.....	\$9 00
24 to 30 in.....	6 50	36 to 42 in.....	12 00

PHOTINIA, CHINESE *Photinia serrulata*

Large leaves with fine, saw-tooth edges. New growth red.

18 to 24 in.....	\$5 00	30 to 36 in.....	\$8 50
24 to 30 in.....	6 50	3 to 4 ft.....	12 50

PHOTINIA, JAPANESE *Photinia glabra*

New foliage is wine-colored. White flowers in clusters. Needs a sunny, well-drained location.

18 to 24 in.....	\$5 50	30 to 36 in.....	\$9 00
24 to 30 in.....	7 00		

PIERIS, JAPANESE*Pieris japonica*

Dark green, compact foliage. Bell-shaped, white flowers in dense panicles in spring.

Each		Each	
15 to 18 in.	\$5 00	24 to 30 in.	\$10 00
18 to 24 in.	7 50		

PRIVET, AMOOR RIVER*Ligustrum amurense*

Well-known evergreen hedge plant. Vigorous and hardy.

	Planted	Not Planted
18 to 24 in., bare root	\$0 60	\$0 35
2 to 3 ft., bare root	75	50
3 to 4 ft., bare root	1 00	75

10% less per hundred not planted.

PYRACANTHA, ORANGE-BERRY*Pyracantha coccinea lalandi*

Upright, with dark foliage. White flowers in spring. Bright orange berries in fall.

Each		Each	
2 to 3 ft.	\$3 50	3 to 4 ft.	\$5 00

PYRACANTHA, GRABER*Pyracantha yunnanensis graberi*

Large-berried form of Red-berry Pyracantha. Large, wide bush. Berries heavily in fall.

Price same as Red-berry Pyracantha.

PYRACANTHA, RED-BERRY*Pyracantha yunnanensis gibbsi*

Bright red berries most of winter. Excellent for espaliers. Hardy.

18 to 24 in.	\$4 00	30 to 36 in.	\$6 50
24 to 30 in.	5 00	3 to 4 ft.	9 00

RHODODENDRONS

These beautiful broadleaf evergreen shrubs do best planted in a mixture of leaf mold, peat and sandy loam. They should be protected from strong winds and continuous hot sun, and the soil kept moist. Transplant in either spring or fall. Mulch to protect from frost and drought.

RHODODENDRON, ROSEBAY*Rhododendron maximum*

Very long, dark green leaves. Flowers white.

Each		Each	
18 to 24 in.	\$5 00	2 to 3 ft.	\$7 50

Rhododendron Planting

RHODODENDRON, continued

RHODODENDRON, HYBRID

Selected horticultural varieties

- Album elegans. Lilac fading to white.
- Catawbiense album. Clear white.
- Dr. H. C. Dresselhuys. Crimson-red.
- Gomer Waterer. White.
- Lee's Dark Purple. Dark purple.
- Nova Zembla. Bright red.
- Roseum elegans. Mauve-pink.
- Roseum superbum. Large rosy lilac.

	Each		Each
15 to 18 in.....	\$7 50	24 to 30 in.....	\$12 50
18 to 24 in.....	10 00	30 to 36 in.....	15 00

VIBURNUM, LEATHERLEAF *Viburnum rhytidophyllum*

Wrinkled, leathery leaves. White flowers in flat clusters. Red fruit in August.

18 to 24 in.....	\$4 50	3 to 4 ft.....	\$10 00
24 to 30 in.....	6 00	4 to 5 ft.....	14 00
30 to 36 in.....	7 50		

WAXMYRTLE, SOUTHERN *Myrica cerifera*

Shiny green, waxy foliage. Blue-white, aromatic berries. Large shrub, purple-bronze in autumn.

2 to 3 ft.....	\$5 00	4 to 5 ft.....	\$9 00
3 to 4 ft.....	7 50		

YUCCA, BEARGRASS OR ADAM'S NEEDLE *Yucca filamentosa*

Stiff upright leaves. Big spikes of creamy white flowers.

Large clump.....	\$2 50
------------------	--------

YUCCA, SPANISH BAYONET *Yucca aloifolia*

Tropical appearance. Sword-like leaves on bare stem.

3 to 4 ft.....	\$12 50
----------------	---------

AZALEAS AND CAMELLIAS

These broadleaf evergreens are distinguished by their free flowering qualities. They are very sensitive to dryness. They grow best in an acid, sandy soil with plenty of humus. A heavy mulch of pine needles or peat moss will hold moisture in summer and protect the roots from freezing in winter.

KURUME AZALEAS

The Kurume Azaleas are extremely floriferous and are one of the most showy of all flowers used in landscaping. The brilliant colors are almost every hue and shade.

AMOENA

Masses of bright rosy purple flowers in May. Foliage green, with a bronze tint in fall. Low growing.

AMOENA, RED

Bright red flowers in masses. Small leaves, green, in summer and bronze in fall. Low growing.

BRIDESMAID

Large clusters of salmon-pink. Low growing.

Azalea Planting

KURUME AZALEAS, continued

CHRISTMAS CHEER

Double, deep crimson. Compact grower with small shiny leaves.

CORAL BELLS

Shell-pink, shading deeper at center. Lustrous green foliage. Low growing.

FLAME

Brilliant orange-red, single flowers. Vigorous. Early blooming.

GLORY

New light pink variety. Compact in growth.

HEXE

Late-blooming variety with large, crimson-red flowers. Low growing.

HINODEGIRI

Brilliant scarlet, single. Profuse blooming. Dwarf.

HINOMAYO

Soft pink flowers. Upright grower. Very hardy.

PINK PEARL

Double flowers of a lovely pink, tinted lighter in the center. Blooms in large clusters. Medium growing.

SALMON BEAUTY

Large, salmon-pink. Low growing.

SNOW

Large, pure white flowers in clusters. Glossy green foliage. Dwarf.

	Each	10 or more Each
6 to 8-in. spread.....	\$2 00	\$1 75

GLENN DALE AZALEAS

Lovely large-flowered evergreen Azaleas. Distinctive in appearance.

ANCHORITE

Rose-pink with orange undertone. Medium growth.

CORSAIR

Deep rose-pink, large.

GLENN DALE AZALEAS, continued**FASHION**

Orange-red, hose-in-hose. Medium growing.

FIREFLY

Single, flaming red flowers. Vigorous, upright growth.

GLACIER

Shining white flowers with faint green tone. Dark green, lustrous leaves. Vigorous.

ROBIN HOOD

Deep rose-red; pistil scarlet.

INDICA AZALEAS

Beautiful large-flowered evergreen Azaleas, widely grown in the South.

FORMOSA

Purple-pink flowers late in the season. Large, shiny leaves.

GEORGE TABER

Pastel pink with darker throat. Needs winter protection in this area.

INDICA ALBA

Pure white. Light green foliage. Upright. Very hardy.

INDICA ROSEA

Large single flowers, white tinted with rose. Fast grower. Hardy.

LADY LILAC

Lilac-purple. Easily grown with minimum attention.

LILACINA

Orchid flowers. Very profuse blooming. Strong growing and hardy.

Azalea indica alba

GABLE AZALEAS

Hardier evergreen Azaleas developed in Pennsylvania by Joseph B. Gable.

PURPLE SPLENDOR

Double, dark purple flowers. Lustrous foliage. Medium growing.

ROSE GREELY

Pure white, hose-in-hose. Compact, branching habit. Medium growing.

	Each	10 or more Each
6 to 8-in. spread.....	\$2 00	\$1 75
8 to 10-in. spread.....	2 50	2 25

MISCELLANEOUS AZALEAS

MACRANTHA SINGLE

Late blooming. Large, salmon-red flowers. Shiny, dark green foliage.

Price same as Kurume varieties.

MACRANTHA DOUBLE ROSE

Double pink. Late flowering. Narrow green leaves.

Price same as Kurume varieties.

MARY

Deep pink flowers. Hardy, vigorous grower.

Price same as Kurume varieties.

POUKHANENSE

Early-blooming, deciduous variety. Rose-pink to rose-purple.

Price same as Indica varieties.

PURPLE KING

Vigorous grower. Large purple flowers.

Price same as Indica varieties.

CAMELLIAS

SPRING-BLOOMING

Camellia japonica

These plants do better when protected from the winter sun and wind.

C. M. Wilson. Semi-double, pale pink.

Empress. Semi-double, carmine-rose.

Kumasaka. Semi-double, rose-pink.

Mathotiana Rubra. Dark red, very large, full double.

Pink Perfection. Shell-pink, full double.

Rev. John G. Drayton. Rose-pink, semi-double.

White Empress. Semi-double, white.

Limited quantities in many other varieties.

CAMELLIAS, continued

FALL-BLOOMING

Camellia sasanqua

These plants do better when protected from the winter sun. Dark glossy foliage is attractive all year. Flowers in profusion in fall.

- Cleopatra.** Dense growth. Semi-double, rose-pink.
- Hinode-gumo.** White shaded pink. Large single flowers.
- Mine-no-yuki.** Double white flowers.
- Limited quantities in many other varieties.

CONIFEROUS EVERGREENS

These conifers, or cone-bearing evergreens, include many of the more formal shapes. The deep and contrasting colors, the variety of textures, and the many habits of growth give this group a wide scope of uses. Hardiness is the key to their popularity.

ARBORVITAE, AMERICAN

Thuja occidentalis

Erect and pyramidal plant with soft, dark green foliage. Excellent for tall hedges. May be kept at any height.

	Each		Each
2 to 3 ft.....	\$4 00	4 to 5 ft.....	\$8 50
3 to 4 ft.....	6 00		

ARBORVITAE, BERCKMANN GOLDEN

Thuja orientalis aurea nana

One of the best dwarf golden evergreens. Very compact, symmetrical, and attractive in winter.

18 to 24 in.....	\$4 50	24 to 30 in.....	\$5 50
------------------	--------	------------------	--------

Arborvitae, Pyramidal. See page 18

ARBORVITAE, continued

ARBORVITAE, CHINESE *Thuja orientalis chinensis*

A hardy conifer of pyramidal growth. Fresh green foliage in winter. May be kept to any height by trimming.

	Each		Each
2 to 3 ft.....	\$3 50	3 to 4 ft.....	\$4 50

ARBORVITAE, GLOBE *Thuja occidentalis globosa*

Dwarf, globe-shaped Arborvitae. Forms a dense, low globe of a handsome shade of green. Valuable for formal effects.

12 to 15 in.....	\$2 50	18 to 24 in.....	\$4 50
15 to 18 in.....	3 50	24 to 30 in.....	6 00

ARBORVITAE, PLICATA *Thuja occidentalis plicata*

A compact form good for foundation planting. Foliage is dark green, flat and shiny.

2 to 3 ft.....	\$4 00	4 to 5 ft.....	\$8 50
3 to 4 ft.....	6 00		

ARBORVITAE, PYRAMIDAL

Thuja occidentalis pyramidalis

Erect, tall, dark green. Seldom needs shearing. Transplants easily.

2 to 3 ft.....	\$4 00	4 to 5 ft.....	\$10 00
3 to 3½ ft.....	6 00	5 to 6 ft.....	12 50
3½ to 4 ft.....	8 00		

CEDAR, ATLAS *Cedrus atlantica*

A true Cedar from the mountains of North Africa. Needles in star-like clusters covering the twigs and branches. Graceful and picturesque—a tree with character. Best used as a specimen where there is adequate room to grow.

4 to 5 ft.....	\$15 00	6 to 7 ft.....	\$27 50
5 to 6 ft.....	20 00		

Cedar, Indian or Deodara

CEDAR, INDIAN OR DEODARA

Cedrus deodara

Stately tree with blue-green foliage. Feathery, spreading branches. Hardy and fast growing.

Each		Each	
2 to 3 ft.	\$6 00	5 to 6 ft.	\$15 00
3 to 4 ft.	8 50	6 to 7 ft.	20 00
4 to 5 ft.	11 00	7 to 8 ft.	27 50

CEDAR OF LEBANON

Cedrus libani

Similar to Atlas Cedar but with longer needles.

4 to 5 ft.	\$15 00	6 to 7 ft.	\$27 50
5 to 6 ft.	20 00		

CHINESE FIR

Cunninghamia lanceolata glauca

A very beautiful blue-green color. Fast growing. Foliage excellent in arrangements.

2 to 3 ft.	\$6 00	4 to 5 ft.	\$12 00
3 to 4 ft.	8 50	5 to 6 ft.	16 50

CYPRESS, GOLDEN

Chamaecyparis pisifera plumosa aurea

Pyramidal shrub with thread-like foliage. Tips of foliage golden.

Price same as Silver Cypress.

CYPRESS, PLUME

Chamaecyparis pisifera plumosa

Green pyramidal type. Feathery foliage, soft green underneath. Hardy.

Price same as Silver Cypress.

CYPRESS, SILVER

Chamaecyparis pisifera squarrosa veitchi

Soft blue-green foliage. Frond-like branches. Pyramidal in growth.

18 to 24 in.	\$3 00	3 to 4 ft.	\$6 50
24 to 30 in.	3 75	4 to 5 ft.	9 00
30 to 36 in.	4 50		

HEMLOCK, CANADIAN

Tsuga canadensis

Graceful evergreen with yew-like foliage. Spreading, pendulous branches. May be kept small by trimming.

2 to 3 ft.	\$6 50	5 to 6 ft.	\$17 50
3 to 4 ft.	9 00	6 to 7 ft.	25 00
4 to 5 ft.	12 50		

JUNIPER, GREEK

Juniperus excelsa stricta

Gray-green, spiny foliage. Dense, wide, pyramid shaped.

15 to 18 in.	\$3 00	30 to 36 in.	\$6 50
18 to 24 in.	4 00	3 to 4 ft.	9 00
24 to 30 in.	5 00		

JUNIPER, HETZI

Juniperus chinensis pfitzeriana glauca

Blue-green, spreading type. More upright than Pfitzer. Hardy.

15 to 18 in.	\$3 50	30 to 36 in.	\$9 00
18 to 24 in.	4 50	3 to 4 ft.	12 00
24 to 30 in.	6 50		

Hemlock, Canadian. See page 19

JUNIPER, IRISH

Juniperus communis hibernica

Columnar shaped, with blue-green foliage. Rapid growth. Requires small space to grow in. Formal.

Each		Each	
2 to 3 ft.....	\$3 50	4 to 5 ft.....	\$5 50
3 to 4 ft.....	4 50	5 to 6 ft.....	7 00

JUNIPER, LITORALIS OR SHORE

Juniperus conferta

Low-growing, creeping variety. Medium green foliage. Can be used as a ground cover.

15 to 18 in.....	\$3 50	24 to 30 in.....	\$6 50
18 to 24 in.....	4 50		

JUNIPER, PFITZER

Juniperus chinensis pfitzeriana

Spreading type. Beautiful silvery green, feathery foliage. Very hardy and dense.

15 to 18 in.....	\$3 50	24 to 30 in.....	\$6 50
18 to 24 in.....	4 50		

JUNIPER, PFITZER, COMPACT

Juniperus chinensis pfitzeriana compacta

Low, spreading Juniper. Dense, silvery green foliage. Neat and compact.

15 to 18 in.....	\$4 00	24 to 30 in.....	\$7 50
18 to 24 in.....	5 50		

JUNIPER, VIRGINIA CEDAR *Juniperus virginiana*

The familiar Virginia Cedar, deep green, fine in texture. Excellent for hedge. A graceful specimen tree.

Each		Each	
2 to 3 ft.	\$5 00	4 to 5 ft.	\$9 00
3 to 4 ft.	6 50	5 to 6 ft.	12 00

JUNIPER, VIRGINIA BLUE*Juniperus virginiana glauca*

A blue-gray variety. Specimen plants have striking appearance.

2 to 3 ft.	\$6 00	4 to 5 ft.	\$11 00
3 to 4 ft.	8 50	5 to 6 ft.	15 00

PINE, LOBLOLLY*Pinus taeda*

Bright green needles in clusters of three. Stately tree, native of eastern Virginia.

3 to 4 ft.	\$6 50	5 to 6 ft.	\$12 00
4 to 5 ft.	9 00	6 to 7 ft.	15 00

PINE, SCOTS*Pinus sylvestris*

Green needles in clusters of two. Dense, low-growing tree. Hardy in windy places.

2 to 3 ft.	\$7 00	3 to 4 ft.	\$9 00
------------	--------	------------	--------

PINE, WHITE*Pinus strobus*

Blue-green needles in clusters of five. Easily transplanted. Fast growing. Excellent for screening or as a specimen tree.

2 to 3 ft.	\$5 00	5 to 6 ft.	\$12 00
3 to 4 ft.	6 50	6 to 7 ft.	15 00
4 to 5 ft.	9 00		

SPRUCE, COLORADO*Picea pungens*

Bluish green, stiff needles. Slow growing. Symmetrical, pyramidal shape.

18 to 24 in.	\$6 00	3 to 4 ft.	\$11 00
2 to 3 ft.	8 50		

SPRUCE, NORWAY*Picea excelsa*

Symmetrical. Spreading, somewhat pendulous branches. Foliage dark, shiny green.

2 to 3 ft.	\$6 00	4 to 5 ft.	\$12 00
3 to 4 ft.	8 50		

YEW, HICKS*Taxus media hicksi*

Columnar form. Upright branches. Dark green needles. Red berries. Very hardy.

12 to 18 in.	\$4 00	30 to 36 in.	\$10 00
18 to 24 in.	5 00	36 to 42 in.	14 00
24 to 30 in.	7 50	42 to 48 in.	18 00

YEW, DWARF JAPANESE*Taxus cuspidata nana*

Very dark, shiny needles. Spreading, shrubby grower.

12 to 15 in.	\$4 50	18 to 24 in.	\$9 00
15 to 18 in.	7 00	24 to 30 in.	13 00

SHADE TREES

A most attractive sight in summer is an area of cooling shade. The natural beauty of a tree is something hard to describe. In home landscaping the use of shade trees for accent, background, screening and shade is one of the most important considerations.

A "specimen tree" for a long time meant the straight stark tree, but we now realize that unsymmetrical trees have character and beauty that surpasses the symmetrical specimens.

We have here divided the shade trees into groups according to their rate of growth, ornamental value, durability and general usefulness.

GROUP I

The trees in this group are considered the best for durability, disease resistance and symmetrical beauty. Their long life and stately appearance are most desirable qualities.

Specimen Tree Prices

Caliper	Approx. Height	Approx. Weight	Each
1 to 1½ in.....	8 ft.....	100 lbs.....	\$17 50
1½ to 2 in.....	10 ft.....	150 lbs.....	25 00
2 to 2½ in.....	12 ft.....	300 lbs.....	35 00
2½ to 3 in.....	14 ft.....	700 lbs.....	47 50
3 to 3½ in.....	16 ft.....	1150 lbs.....	62 50

BIRCH, EUROPEAN WHITE

Betula pendula

White bark and drooping branches make this tree most attractive.

	Each
6 to 8 ft.....	\$10 00

LOCUST, MORaine

Thornless, seedless variety of Honey Locust. Spreading branches. Rapid growth. Plant Pat. No. 836.

6 to 8 ft.....	\$12 50
----------------	---------

Locust, Moraine

Locust, Shademaster

SHADE TREES, Group I, continued

LOCUST, SHADEMASTER

Thornless, ascending variety of Honey Locust.
Disease-free. Plant Pat. No. 1515. Each
6 to 8 ft.....\$12 50

LOCUST, SUNBURST

Spreading branches tipped with gold. Thornless variety of Honey Locust. Plant Pat. No. 1313.
6 to 8 ft.....\$12 50

MAPLE, SUGAR

Acer saccharum

A straight, spreading and symmetrical tree. Foliage has very rich autumn tints of clear yellow and scarlet.
6 to 8 ft.....\$10 00 | 8 to 10 ft.....\$15 00

OAK, SCARLET

Quercus coccinea

Stately, tall grower. Deep-cut leaves. Striking autumn color.
6 to 8 ft.....\$12 50

OAK, WATER

Quercus nigra

Dense, club-shaped leaves. Handsome tree with slender branches.
6 to 8 ft.....\$12 50

SHADE TREES, Group I, continued**OAK, WILLOW***Quercus phellos*

Long, narrow, willow-like leaves. Straight trunk.
Long lived. Each

6 to 8 ft. \$12 50

GROUP II

We have planted the trees in this group for many years.
We recommend them for their ability to form a shapely
tree in a somewhat shorter time than those in group I.

Specimen Tree Prices

Caliper	Approx. Height	Approx. Weight	Each
1 to 1½ in.	8 ft.	100 lbs.	\$15 00
1½ to 2 in.	10 ft.	150 lbs.	22 50
2 to 2½ in.	12 ft.	300 lbs.	32 50
2½ to 3 in.	14 ft.	700 lbs.	45 00
3 to 3½ in.	16 ft.	1150 lbs.	60 00

ELM, CORK*Ulmus alata*

Interesting wing-like ridges on branches. Hardy,
strong, clean. Each

6 to 8 ft. \$9 00

HACKBERRY, SUGAR*Celtis laevigata*

Similar to common Hackberry but slower growing
and more symmetrical.

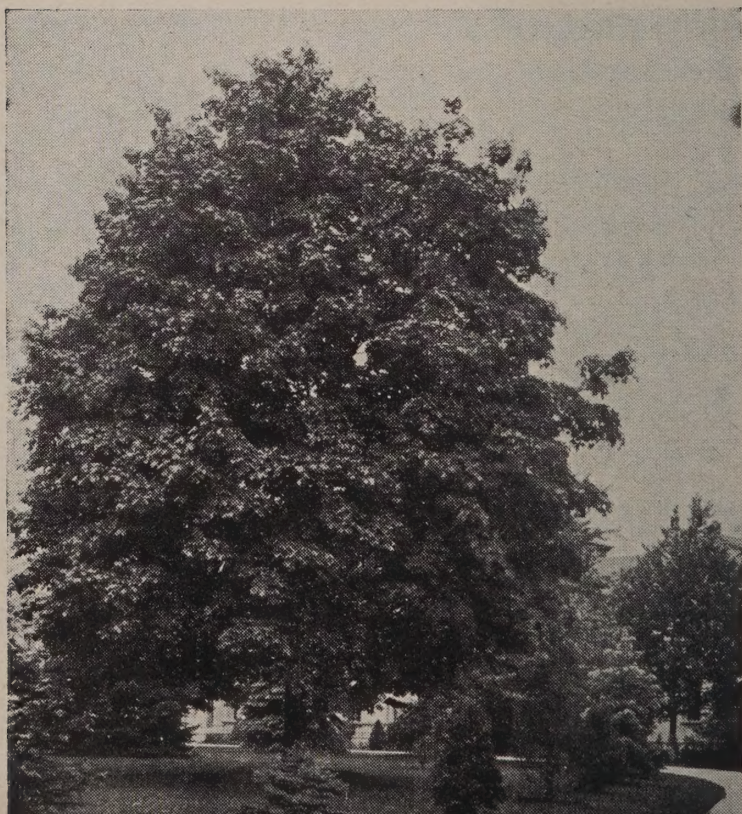

KENTUCKY COFFEE-TREE*Gymnocladus dioica*

Open, airy tree. Interesting in winter, with gray
stubby twigs and twisted branches.

LINDEN, AMERICAN*Tilia americana*

Fast-growing tree with large rounded leaves.

6 to 8 ft. \$10 00

Maple, Norway

Maple, Scarlet

SHADE TREES, Group II, continued

MAPLE, NORWAY

Acer platanoides

A vigorous-growing tree of spreading, rounded form. Dark, shining green foliage. Excellent for lawn or street planting.

Each
6 to 8 ft. \$9 00

MAPLE, SCARLET

Acer rubrum

Native shade tree that has red flowers in spring before leaves appear.

6 to 8 ft. \$9 00

OAK, PIN

Quercus palustris

Deep, shining green foliage. Straight, tapered trunk. Sturdy and long lived. Beautiful fall colors.

6 to 8 ft. \$10 00

Oak, Pin

Oak, Northern Red

SHADE TREES, Group II, continued

OAK, NORTHERN RED

Quercus borealis

A tall-growing, wide-spreading tree with large, deeply cut leaves.

Each
6 to 8 ft. \$10 00

POPLAR, TULIP

Liriodendron tulipifera

Tall, straight tree with large, bright green leaves. Smooth, dark gray bark. Orange blossoms in spring. Very fast in developing.

6 to 8 ft. \$10 00

GROUP III

This group of trees will give you rapid shade and will thrive under difficult conditions. Generally they are not as permanent as group I or group II.

Specimen Tree Prices

Caliper	Approx. Height	Approx. Weight	Each
1 to 1½ in.	8 to 10 ft.	80 lbs.	\$12 50
1½ to 2 in.	10 to 12 ft.	125 lbs.	17 50
2 to 2½ in.	12 to 14 ft.	260 lbs.	25 00
2½ to 3 in.	14 to 16 ft.	500 lbs.	35 00
3 to 3½ in.	16 to 18 ft.	900 lbs.	47 50

HACKBERRY

Celtis occidentalis

Fast-growing tree, not particular about soil. Good for shade and ornament. Long, toothed leaves. Fruit orange-red to dark purple.

Each
6 to 8 ft. \$9 00

SHADE TREES, Group III, continued

LOCUST, THORNLESS HONEY

Gleditsia triacanthos inermis

Quick growing. Green, lacy foliage. Each
6 to 8 ft.\$9 00

MAGNOLIA, CUCUMBER

Magnolia acuminata

Tall, upright tree with very large leaves. Large white flowers; cucumber-like fruit.

MAPLE, SILVER

Acer saccharinum

A desirable, rapid-growing shade tree of native origin. Has irregular, rounded form. Bright green leaves with a silver sheen beneath.

6 to 8 ft.\$8 00

SWEETGUM

Liquidambar styraciflua

Native symmetrical tree with star-shaped leaves which turn brilliant red in the fall.

6 to 8 ft.\$9 00

SYCAMORE, AMERICAN

Platanus occidentalis

Large trees with pale bark shedding in plates. Lacy leaves. Spreading habit.

6 to 8 ft.\$8 00

WILLOW, WEEPING

Salix babylonica

Graceful weeping branches. Rapid grower. Early spring foliage. Excellent background or screen.

	Each		Each
5 to 6 ft.	\$5 00		8 to 10 ft.\$10 00
6 to 8 ft.	7 50		

Willow, Weeping

Maple, Crimson King

GROUP IV

The trees in this group are unusual. Their rare characteristics are evident from the individual descriptions.

Specimen Tree Prices

Caliper	Approx. Height	Approx. Weight	Each
1 to 1½ in.....	8 ft.....	100 lbs.....	\$18 50
1½ to 2 in.....	10 ft.....	150 lbs.....	27 50
2 to 2½ in.....	12 ft.....	300 lbs.....	37 50

MAPLE, CRIMSON KING

Acer platanoides schwedleri nigra

Crimson foliage, spring until frost. Growth similar to the Norway Maple. Pl. Pat. No. 735.

	Each
6 to 8 ft.....	\$12 00

OAK, DARLINGTON

Quercus darlingtonia

Semi-evergreen variety similar to Willow Oak, but slower growing. 6 to 8 ft.....

\$12 50

GROUP V

The two trees we list in this group are extremely ornamental in that they are evergreen shade trees. Early fall or spring planting is recommended.

Specimen Tree Prices

Caliper	Approx. Height	Approx. Weight	Each
1½ to 2 in.....	6 to 7 ft.....	150 lbs.....	\$30 00
2 to 2½ in.....	7 to 8 ft.....	300 lbs.....	40 00
2½ to 3 in.....	8 to 10 ft.....	700 lbs.....	60 00
3 to 3½ in.....	10 to 12 ft.....	1150 lbs.....	85 00

OAK, JAPANESE EVERGREEN

Quercus acuta

Long, dark green, pointed leaves. A small evergreen tree.

	Each		Each
4 to 5 ft.....	\$15 00	5 to 6 ft.....	\$20 00

OAK, LIVE

Quercus virginiana

This narrow-leaved evergreen tree is well known from Virginia south. Leaves are dark green on top and whitish beneath. Slow growing. Long lived.

4 to 5 ft.....	\$15 00	5 to 6 ft.....	\$20 00
----------------	---------	----------------	---------

Birch, White Clump

FLOWERING TREES

The trees in this list are generally smaller growing varieties that are noted for their beautiful flowers, attractive fruits or brilliant foliage colors. Such trees are always of interest, and should be given preferred positions in the home landscape.

ASH, EUROPEAN MOUNTAIN *Sorbus aucuparia*
Small leaves in fronds. Orange-red fruit in early fall.

	Each		Each
6 to 7 ft.....	\$10 00	8 to 10 ft.....	\$20 00
7 to 8 ft.....	15 00		

BIRCH, WHITE CLUMP *Betula pendula*
Has three or four white canes that contrast with green lawns.

4 to 5 ft.....	\$10 00	6 to 8 ft.....	\$15 00
5 to 6 ft.....	12 50	8 to 10 ft.....	22 50

CRAPE MYRTLE *Lagerstroemia indica*
This shrub flowers from July 4th until frost. Delicate-looking flowers in large clusters. Foliage takes on colorful fall hues.

Watermelon-Red
Purple
Pink

2 to 3 ft.....	\$4 00	5 to 6 ft.....	\$12 00
3 to 4 ft.....	6 00	6 to 7 ft.....	17 50
4 to 5 ft.....	8 50		

CRAPE MYRTLE, WHITE *Lagerstroemia indica alba*
Same as above but a slightly slower grower. Beautiful large clusters of white flowers.

2 to 3 ft.....	\$5 00	3 to 4 ft.....	\$7 00
----------------	--------	----------------	--------

Dogwood, White Flowering

DOGWOOD, KOUSA

Cornus kousa

Similar to Flowering Dogwood but more upright. The white flowers are pointed, giving a star-like appearance. Red fruits resembling strawberries hang on slender stems in the fall.

Slender stems in the fall.			
	Each		Each
2 to 3 ft.....	\$5 00		3 to 4 ft.....\$8 00

DOGWOOD, PINK FLOWERING *Cornus florida rubra*

An enchanting pink form of the native Dogwood. A wonderful combination is made by planting the pink and white varieties together.

2 to 3 ft.....	\$5 00		5 to 6 ft.....	\$16 50
3 to 4 ft.....	8 00		6 to 7 ft.....	22 00
4 to 5 ft.....	12 00			

DOGWOOD, WHITE FLOWERING *Cornus florida*

This native Virginia tree produces a wealth of white blossoms in spring. In fall the foliage is very colorful. Brilliant scarlet fruits remain well into the winter.

2 to 3 ft.....	\$3 25		5 to 6 ft.....	\$8 50
3 to 4 ft.....	5 00		6 to 7 ft.....	12 00
4 to 5 ft.....	7 00			

FLOWERING CRABAPPLE *Malus varieties*

Almey. Bright red flowers; scarlet fruit.

Arents. Masses of single pink flowers.

Baccata. White flowers; light bark.

Floribunda. Semi-double, clear pink.

Floribunda atrosanguinea. Rose-purple.

Hopa. Rose-colored blossoms; red fruit.

Parkmani. Deep pink, single.

Red Silver. Red blooms; red-tinted foliage.

4 to 5 ft.....	\$6 00		7 to 8 ft.....	\$15 00
5 to 6 ft.....	8 00		8 to 10 ft.....	22 50
6 to 7 ft.....	11 00			

Large specimen plants priced at the nursery.

GOLDEN CHAIN TREE *Laburnum vossi*

Hanging clusters of pure yellow flowers make this small tree distinctive.

5 to 6 ft.....	\$10 00		7 to 8 ft.....	\$15 00
6 to 7 ft.....	12 50			

Flowering Crabapple

GOLDEN RAIN TREE

Koelreuteria paniculata

Large panicles of bright yellow flowers in July. Golden seed pods remain long after blooms disappear. A decorative tree that thrives in difficult locations.

	Each		Each
3 to 4 ft.	\$6 00		5 to 6 ft. \$10 00
4 to 5 ft.	8 00		

Golden Chain Tree

Japan Flowering Cherry, Kwanzan

GORDONIA

Franklinia alatamaha

Glossy green leaves turning orange-red in autumn. Beautiful white flowers with yellow stamens. Blooms in late summer.

Each	Each
2 to 3 ft. \$7 50	3 to 4 ft. \$10 00

HAWTHORN, ENGLISH

Crataegus oxyacantha

Wide-spreading, horizontal branches. White flowers; red fruit.

6 to 7 ft. \$12 50	8 to 10 ft. \$25 00
7 to 8 ft. 17 50	

JAPANESE PAGODA-TREE

Sophora japonica

Feathery, dark green leaves; green stems. A graceful, wide-spreading tree. Clusters of sweet pea-like flowers in summer.

3 to 4 ft. \$7 50	5 to 6 ft. \$15 00
4 to 5 ft. 10 00	6 to 7 ft. 20 00

JAPAN FLOWERING CHERRY, KWANZAN

Prunus serrulata, Kwanzan

Double, deep pink, darker in bud stage and rosy pink when fully open.

4 to 5 ft. \$7 00	6 to 7 ft. \$15 00
5 to 6 ft. 10 00	

JAPAN FLOWERING CHERRY, MT. FUJI

Prunus serrulata, Mt. Fuji

Double white. A tree in full bloom seems to be covered with snow. Small, spreading.

4 to 5 ft. \$7 00	6 to 7 ft. \$15 00
5 to 6 ft. 10 00	

JAPAN FLOWERING CHERRY, YOSHINO

Prunus yedoensis

Free blooming, with single pink blooms along semi-pendulous branches

4 to 5 ft. \$7 00	6 to 7 ft. \$15 00
5 to 6 ft. 10 00	

JAPAN WEeping CHERRY *Prunus subhirtella pendula*

Large spreading head with drooping branches on a 5 to 6-foot trunk. Soft pink blooms along the long weeping branches in spring.

	Each
1-yr. head.....	(Spring only) \$9 50
2-yr. head.....	12 50
3-yr. head.....	16 50

MAGNOLIA, SAUCER*Magnolia soulangeana*

Large, pink and white blooms in early spring before leaves appear. Small tree. Very popular.

	Each		Each
2 to 3 ft.....	\$5 00	4 to 5 ft.....	\$10 00
3 to 4 ft.....	7 50	5 to 6 ft.....	15 00

MAGNOLIA, STAR*Magnolia stellata*

Dwarf trees, earliest to bloom. Attractive star-like, white flowers appear before the leaves.

18 to 24 in.....	\$5 00	30 to 36 in.....	\$10 00
24 to 30 in.....	7 50	3 to 4 ft.....	15 00

MAPLE, JAPAN BLOODLEAF*Acer palmatum atropurpureum*

Most attractive of all dwarf trees. Wine-red foliage in spring and again in fall.

18 to 24 in.....	\$5 00	30 to 36 in.....	\$8 50
24 to 30 in.....	6 50	3 to 4 ft.....	12 00

PEACH, RED OR WHITE FLOWERING*Prunus persica rubro-plena*

Double, red. At its blooming time in May every twig and branch is bright with beautifully formed flowers.

3 to 4 ft.....	\$4 00	4 to 5 ft.....	\$5 00
----------------	--------	----------------	--------

PLUM, PURPLE-LEAF *Prunus pissardi, Thundercloud*

Small tree with deep rich purple foliage during the entire summer. Pale pink flowers, dark red fruit.

4 to 5 ft.....	\$5 00	6 to 7 ft.....	\$10 00
5 to 6 ft.....	7 50		

POPLAR, LOMBARDY*Populus nigra italica*

Tall, columnar form. Low-branched, quick growth. Used both for screening and as individual specimen.

Bare Root		Balled & Burlapped	
4 to 6 ft.....	\$3 00	4 to 6 ft.....	\$4 00
6 to 8 ft.....	4 00	6 to 8 ft.....	5 00

REDBUD, CHINESE*Cercis chinensis*

The dwarf Redbud. Heart-shaped leaves. Flowers before foliage appears. Very dense.

2 to 3 ft.....	\$3 00	3 to 4 ft.....	\$4 00
----------------	--------	----------------	--------

REDBUD OR JUDAS-TREE*Cercis canadensis*

Small, vase-shaped tree with large, heart-shaped leaves. Blooms in spring before leaves appear.

3 to 4 ft.....	\$3 50	5 to 6 ft.....	\$7 50
4 to 5 ft.....	5 00		

SMOKE-TREE*Rhus cotinus*

A bushy shrub with a feathery, purplish, smoky appearance when in bloom.

2 to 3 ft.....	\$3 50	4 to 5 ft.....	\$6 50
3 to 4 ft.....	4 50		

Almond, Pink Flowering

DECIDUOUS FLOWERING SHRUBS

The planting of hardy shrubs has now become so important that we have provided a full assortment of the most choice and desirable varieties. There is an infinite number of species, from which we have selected the varieties which we consider best for general planting.

Pruning Shrubs. Many persons trim and shear shrubs into regular shapes, imagining that regular outline adds to their effect and beauty. While symmetry and regularity of form are to be admired in a shrub, this quality should never be gained at the expense of health and natural grace. Each shrub has its own peculiarities of habit and foliage, and we should aim to preserve these characteristics as far as possible. Judicious pruning to secure health and vigor is necessary, but trimming all kinds of shrubs into one form shows a lack of appreciation of natural beauty, to say the least. The old growth should be occasionally thinned out and the suckers and root sprouts removed when they appear. The best time, however, for pruning all shrubs is just after they have finished flowering.

We are growers of shrubs in a large way, and have as nice, vigorous plants as can be obtained anywhere. All shrubs are dug fresh from the nursery when shipment is made.

ALMOND, PINK FLOWERING *Prunus glandulosa fl.-pl.*

In full bloom before leaves appear. Dwarf, bushy, compact.

	Each
2 to 3 ft.	\$3 00

ALTHEA (ROSE OF SHARON) *Hibiscus syriacus*

Abundance of bloom from July to September. Beautiful screen or hedge. Pink or purple flowers.

	Each		Each
2 to 3 ft.	\$2 00	4 to 5 ft.	\$3 50
3 to 4 ft.	2 50		

BARBERRY, GREEN-LEAVED

Berberis thunbergi

Rugged, low hedge plant. Excellent barrier because of spiny growth. Red berries in winter.
Price same as Red-leaved Barberry.

BARBERRY, RED-LEAVED

Berberis thunbergi atropurpurea

Distinct red foliage, redder in summer. Berries remain in winter. Very hardy.

	Each		Each
18 to 24 in.....	\$2 00	2 to 3 ft.....	\$2 50

BURNING-BUSH OR DWARF WINGED EUONYMUS

Euonymus alatus compactus

Compact. Winged twig formation. Extremely brilliant red fall foliage.

18 to 24 in.....	\$3 50	24 to 30 in.....	\$5 00
------------------	--------	------------------	--------

BUTTERFLY-BUSH

Buddleia davidi

Very strong grower. Free flowering. Large, graceful panicles of flowers during entire summer. Cut back every winter.

- Ile de France. Purple.
 - Pink Charming. Pink.
 - Princeton, Red.
 - Princeton, Purple.
 - Royal Purple. Deep crimson-purple.
 - White. Long-spiked snow-white.
- | | | |
|--------------------|------|--------|
| Strong plants..... | Each | \$2 50 |
|--------------------|------|--------|

CHASTE-TREE

Vitex macrophylla

Large leaves. Bright lavender-blue flowers in summer.

Does well in shade.	Each		Each
2 to 3 ft.....	\$2 00	3 to 4 ft.....	\$3 00

DEUTZIA, DOUBLE WHITE

Deutzia candida

Tassel-like, double pure white flowers clustered into thick wreaths. Hardy, vigorous, adaptable. Blooms May and June.

2 to 3 ft.....	\$2 00	3 to 4 ft.....	\$3 00
----------------	--------	----------------	--------

Butterfly-Bush

Forsythia, Lynwood Gold

DEUTZIA, SLENDER

Deutzia gracilis

Slender arching branches. Pure white flowers. Dwarf.

	Each		Each
15 to 18 in.	\$2 50	2 to 3 ft.	\$4 00
18 to 24 in.	3 00		

ELAEAGNUS, RUSSIAN OLIVE *Elaeagnus angustifolia*

Large shrub with silvery leaves. Orange fruit with silvery coating.

2 to 3 ft.	\$3 50	3 to 4 ft.	\$5 00
-----------------	--------	-----------------	--------

FORSYTHIA, GOLDEN BELL

Forsythia intermedia spectabilis

Bright golden flowers in very early spring. Hardy, vigorous. Ever popular.

2 to 3 ft.	\$2 00	4 to 5 ft.	\$4 50
3 to 4 ft.	3 00		

FORSYTHIA, LYNWOOD GOLD

Forsythia intermedia, Lynwood Gold

Large, deep gold flowers. Profuse bloomer.

Price same as Forsythia, Spring Glory.

FORSYTHIA, SPRING GLORY

Forsythia intermedia, Spring Glory

Pale lemon-yellow flowers in profusion.

2 to 3 ft.	\$2 00	4 to 5 ft.	\$4 50
3 to 4 ft.	3 00		

FRENCH MULBERRY

Callicarpa americana

Small shrub producing small white flowers in August. Clusters of purple fruit remain until after frost.

2 to 3 ft.	\$2 00	3 to 4 ft.	\$3 00
-----------------	--------	-----------------	--------

HONEYSUCKLE, BREATH OF SPRING

Lonicera fragrantissima

Fragrant, creamy white flowers from February to April. Red berries in summer.

2 to 3 ft.	\$2 00	3 to 4 ft.	\$3 00
-----------------	--------	-----------------	--------

HYDRANGEA HORTENSIS

Hydrangea macrophylla otaksa

Large leaves. Huge heads of pink or blue flowers, depending upon the acidity of the soil.

	Each		Each
2-yr. plants.....	\$2 50		3-yr. plants.....\$3 50

HYDRANGEA, OAKLEAF

Hydrangea quercifolia

A wide, roughly rounded bush which grows well in the shade.

2 to 3 ft.....	\$3 00		3 to 4 ft.....\$4 50
----------------	--------	--	----------------------

HYDRANGEA, PEE GEE

Hydrangea paniculata grandiflora

Produces immense panicles of pure white flowers in July. Useful for massing or as single specimen plant.

2 to 3 ft.....	\$2 50		3 to 4 ft.....\$3 50
----------------	--------	--	----------------------

JASMINE, SHOWY

Jasminum floridum

Rather erect, semi-evergreen type. Yellow open flowers, all summer.

18 to 24 in.....	\$2 00		2 to 3 ft.....\$3 00
------------------	--------	--	----------------------

JASMINE, WINTER

Jasminum nudiflorum

Golden yellow flowers before leaves appear. Drooping, dark green foliage.

18 to 24 in.....	\$1 50		2 to 3 ft.....\$2 00
------------------	--------	--	----------------------

KERRIA

Kerria japonica

Yellow, pompon-like blooms in May and June. Stems green all year. Bushy.

2 to 3 ft.....	\$2 00		3 to 4 ft.....\$3 00
----------------	--------	--	----------------------

LILAC, COMMON

Syringa vulgaris

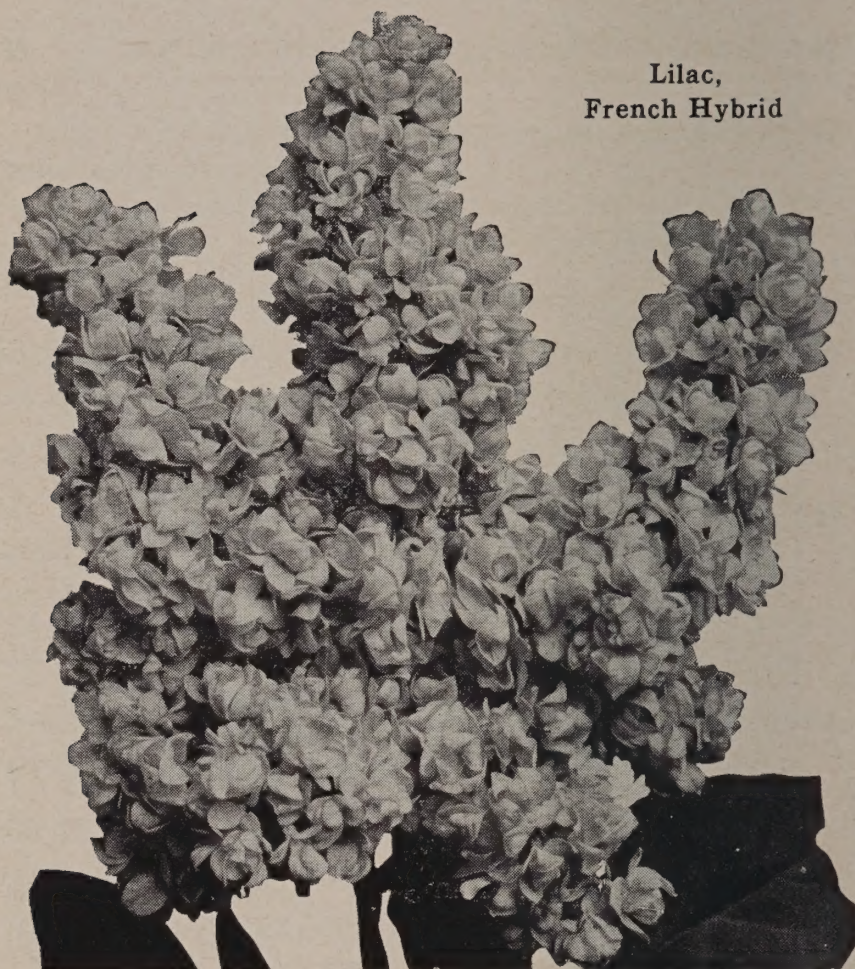

Old-fashioned purple Lilac. Endures neglect. Blooms abundantly.

2 to 3 ft.....	\$3 00		3 to 4 ft.....\$5 00
----------------	--------	--	----------------------

Hydrangea, Pee Gee

Lilac,
French Hybrid

LILAC, FRENCH HYBRID

Syringa, horticultural varieties

- Belle de Nancy.** Double pink.
Charles Joly. Double, deep red-mauve.
Ludwig Spaeth. Single red-purple.
Miss Shipman. Large single white.
Mme. Casimir Perier. Double white.
Pres. Grevy. Double blue.
Pres. Poincare. Double red-purple.

Each		Each
18 to 24 in.....	\$3 00	30 to 36 in.....\$4 50
24 to 30 in.....	3 50	3 to 4 ft.....6 50

MOCK-ORANGE, LARGE FLOWERING

Philadelphus grandiflorus

Large spreading bush with drooping branches. Fragrant flowers.

2 to 3 ft.....	\$2 00	3 to 4 ft.....\$3 00
----------------	--------	----------------------

MOCK-ORANGE, VIRGINAL *Philadelphus virginialis*

Semi-double flowers intermittently all summer. Fragrant.

2 to 3 ft.....	\$2 50	3 to 4 ft.....\$3 50
----------------	--------	----------------------

PEARL-BUSH

Exochorda grandiflora

Flowers pure white with small green dot in center, borne in clusters. Airy, graceful branches. Very hardy.

2 to 3 ft.....	\$2 00	4 to 5 ft.....\$4 50
3 to 4 ft.....	3 00	

PEONY, PINK OR WHITE

Paeonia albiflora

The well-known Peony. Large, showy double blooms in May and June. Plants die back each fall.

Strong clump, B&B.....	\$3 00
------------------------	--------

POMEGRANATE
Tall growing. Orange-red flowers in June. Blooms better in protected areas.

Punica granatum

Each	Each
2 to 3 ft. \$4 00	3 to 4 ft. \$5 00

QUINCE, JAPANESE, RED FLOWERING
Popular shrub. Blooms profusely early in spring. Colors Pink, Red or White.

Chaenomeles lagenaria

18 to 24 in. \$2 50	3 to 4 ft. \$4 50
2 to 3 ft. 3 00	

QUINCE, JAPANESE, WHITE OR PINK FLOWERING
White and Apple-blossom-pink.

Chaenomeles lagenaria varieties

18 to 24 in. \$3 50	3 to 4 ft. \$6 50
2 to 3 ft. 4 50	

SPIREA, ANTHONY WATERER
A pink Spirea. Low growing and bushy. Flowers in June, with an occasional bloom throughout summer.

Spirea bumalda, *Anthony Waterer*

18 to 24 in. \$2 50	24 to 30 in. \$3 00
--------------------------	--------------------------

SPIREA, BABY'S BREATH
Dense feathery bush. Foliage colorful in fall. Pure white flowers in very early spring

Spirea thunbergi

2 to 3 ft. \$2 00	4 to 5 ft. \$4 50
3 to 4 ft. 3 00	

SPIREA, BRIDALWREATH
Tiny, double, button-like, white spring flowers. Very early.

Spirea prunifolia

2 to 3 ft. \$2 00	4 to 5 ft. \$4 50
3 to 4 ft. 3 00	

Spirea, Anthony Waterer

Spirea, Van Houtte

SPIREA, BLUE MIST

Caryopteris mastacanthus

Small-flowering shrub growing to 3 feet high. Covered with masses of blue flowers in late summer and early fall.

	Each		Each
18 to 24 in.....	\$2 50		2 to 3 ft.....\$3 00

SPIREA, REEVES

Spirea cantoniensis

White blooms in June. Semi-upright grower.

Price same as Van Houtte Spirea.

SPIREA, VAN HOUTTE

Spirea vanhouttei

Best of all Spireas. A fountain of pure white blooms in May.

2 to 3 ft.....	\$2 00		4 to 5 ft.....\$4 50
3 to 4 ft.....	3 00		

SWEETSHRUB

Calycanthus floridus

Fragrant, reddish brown flowers. An old-time favorite.

2 to 3 ft.....	\$3 00		3 to 4 ft.....\$4 50
----------------	--------	--	----------------------

TAMARIX

Tamarix aestivalis

Light green, feathery foliage. Branches covered with rosy carmine flowers in spring.

2 to 3 ft.....	\$2 00		3 to 4 ft.....\$3 00
----------------	--------	--	----------------------

VIBURNUM, BURKWOOD

Viburnum burkwoodi

Vigorous habit. Hardy. Fragrant white blooms in spring.

2 to 3 ft.....	\$4 50		4 to 5 ft.....\$7 50
3 to 4 ft.....	6 00		

VIBURNUM, COMMON SNOWBALL

Viburnum opulus sterile

Dense and spreading in growth. Large white flowers in shape of a snowball.

2 to 3 ft.....	\$2 50		3 to 4 ft.....\$3 50
----------------	--------	--	----------------------

VIBURNUM, DOUBLEFILE

Viburnum tomentosum

Large thick leaves. White blooms in May and June Unusual, very desirable variety.

2 to 3 ft.....	\$2 50		3 to 4 ft.....\$4 00
----------------	--------	--	----------------------

VIBURNUM, FRAGRANT*Viburnum carlesii*

Fragrant white flowers in clusters; flower buds pink.
Hardy.

	Each		Each
18 to 24 in.....	\$5 00	3 to 4 ft.....	\$10 00
2 to 3 ft.....	7 50		

VIBURNUM, LINDEN*Viburnum dilatatum*

Colorful bright red berries in fall. Dense and compact.

2 to 3 ft.....	\$2 50	3 to 4 ft.....	\$3 50
----------------	--------	----------------	--------

VIBURNUM, TEA*Viburnum setigerum*

Upright grower with long pointed leaves. Orange-red berries in fall.

2 to 3 ft.....	\$2 50	4 to 5 ft.....	\$5 00
3 to 4 ft.....	3 50		

WEIGELA, PINK FLOWERING*Weigela rosea*

Clear pink flowers. Upright grower. Very hardy.

2 to 3 ft.....	\$2 00	3 to 4 ft.....	\$3 00
----------------	--------	----------------	--------

WEIGELA, RED FLOWERING*Weigela vaniceki*

Brilliant crimson flowers in late spring.

2 to 3 ft.....	\$2 00	3 to 4 ft.....	\$3 00
----------------	--------	----------------	--------

WILLOW, PUSSY*Salix discolor*

Large spring catkins. Very hardy. Easily grown.

2 to 3 ft.....	\$2 50	3 to 4 ft.....	\$3 50
----------------	--------	----------------	--------

WINTERBERRY*Ilex verticillata*

Bright red berries remain after leaves drop. Good for winter arrangements.

3 to 4 ft.....	\$4 00	4 to 5 ft.....	\$6 50
----------------	--------	----------------	--------

Weigela, Red Flowering

CLIMBING VINES AND GROUND
COVERS

We list here vines and ground covers that have proved successful in this area.

AJUGA *Ajuga reptans*
Blue flowers in May; metallic purple foliage in fall and winter. Does well in sun or shade.
Each 100
\$0 30 \$3 25 \$25 00

CAROLINA JESSAMINE *Gelsemium sempervirens*
Evergreen. Long narrow leaves and bright yellow flowers. A climbing shrub.
Each
2-yr. plant. \$2 50

CLEMATIS *Clematis paniculata*
Old fashioned. Small white flowers in midsummer.
2-yr. plant. \$1 50

HYPERICUM, AARONSBEARD ST. JOHNSWORT *Hypericum calycinum*
Low-growing ground cover. Use in full sun or semi-shade. Spreads from root runners to make a carpet of green foliage with golden flowers.
Each Doz.
4-in. clump \$1 00 \$10 00

HYPERICUM, HIDCOTE *Hypericum patulum, Hidcote*
An excellent plant for a foreground planting where a twiggy shrub about 18 inches tall is desired. Has bright yellow, cup-like flowers about 2 inches in diameter. Blooms June to October. Prefers sun or semi-shade.
Each
18 to 24-in. spread \$2 50

Hypericum, Aaronsbeard St. Johnswort

Ivy, English (Hedera Helix)

IVY, ENGLISH

Hedera helix

Evergreen vine. Dark green leaves. Climbs on brick or stone. Excellent ground cover.

Each	Doz.	100
\$0 40	\$4 50	\$35 00

IVY, ENGLISH, CUTLEAF

Hedera helix gracilis

A small star-shaped leaf with prominent veins. Good green color.

Each	Doz.	100
\$0 40	\$4 50	\$35 00

IVY, HAHN'S

Hedera hahni

A medium-leaf, self-branching variety.

Each	Doz.	100
\$0 40	\$4 50	\$35 00

LIRIOPE, BIG BLUE OR MAJESTIC LILYTURF

Liriope muscari

Attractive grass-like foliage. Lilac-purple flowers above foliage in summer. Fine border plant to withstand either sun or shade.

Each	Doz.	100
\$0 30	\$3 25	\$25 00

LIRIOPE, VARIEGATED (SILVERY SUNPROOF)

Liriope muscari variegata

Same as above but with golden edge on foliage. Each 3-in. pots.....\$1 25

LIRIOPE JAPONICA OR MONKEY GRASS

Mondo japonicum

Very low growing, with narrow leaves. Excellent border and rock-garden plant. Good ground cover for either sunny or shady places.

Each	Doz.	100
\$0 30	\$3 25	\$25 00

PACHYSANDRA OR JAPANESE SPURGE*Pachysandra terminalis*

Will form a dense evergreen ground cover. Useful for covering ground beneath trees where grass will not thrive.

Each	Doz.	100
\$0 30.....	\$3 25.....	\$25 00

PACHYSANDRA, SILVER-EDGE*Pachysandra terminalis variegata*

Same as above but with silver edge on leaves.

\$0 60.....	\$6 50.....	\$50 00
-------------	-------------	---------

PERIWINKLE*Vinca minor*

Fine deep green leaf. Blue flowers in spring. Makes a thick ground cover.

\$0 30.....	\$3 25.....	\$25 00
-------------	-------------	---------

SILVER LACE VINE*Polygonum auberti*

Small greenish white flowers are produced in large masses in August. Rapid grower.

Each	Doz.	100
2-yr. plant.....		\$2 50

WINTERCREEPER, PURPLE-LEAF*Euonymus fortunei coloratus*

Evergreen. Long narrow leaves, purple tinged. Effective ground cover.

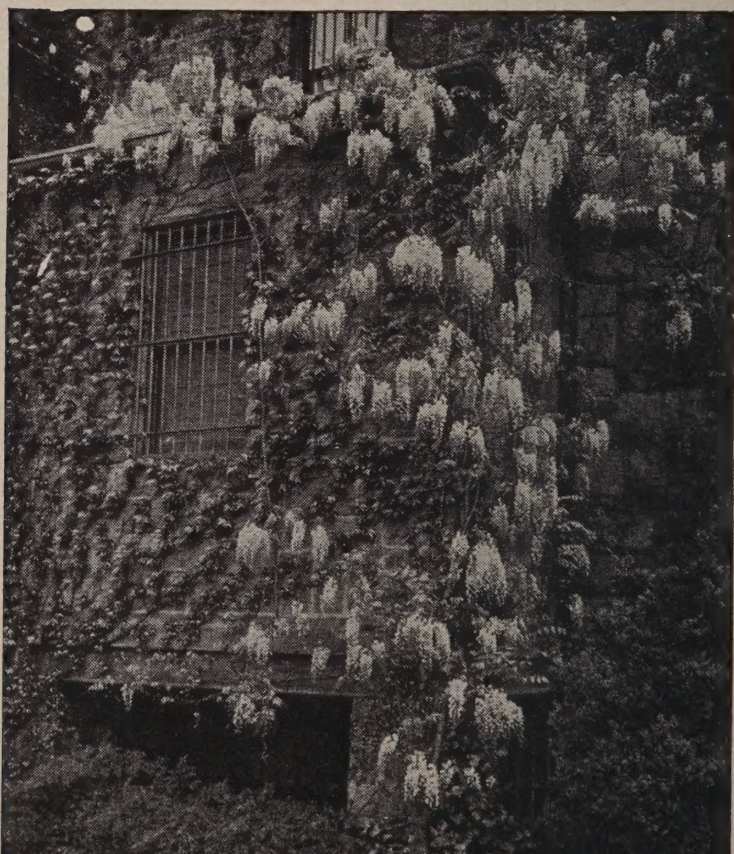

Each	Doz.	100
\$0 40.....	\$4 50.....	\$35 00

WISTERIA*Wisteria sinensis*

Climbing vine. Fast grower. Grafted to bloom. Large flowers of Purple, White or Pink.

Each	Doz.	100
2-yr. plant.....		\$3 00
3-yr. plant.....		4 00

Wisteria

Apples, Stayman's Winesap

FRUIT AND NUT TREES

APPLES

The varieties offered below are some of the best-known and proved sorts. Clay or clay loam is the best soil for growing Apples. The land should be plowed well and deep before setting the trees. It should, of course, be well drained and kept thoroughly cultivated.

Summer Apples

EARLY HARVEST. Medium to large, bright yellow, tender, juicy, well flavored. Ripens early June and lasts two to three weeks.

Winter Apples

DELICIOUS. Medium to large; roundish. Skin dark red with yellow background. A heavy bearer and good keeper; extra fine.

YELLOW DELICIOUS. A very fine Apple, similar to Delicious in flavor and time of ripening.

WINESAP. The old-fashioned Winesap. No better Apple to be had; needs no description.

STAYMAN'S WINESAP. A seedling of Winesap; dark red, firm flesh, fine grained, crisp, sub-acid. Quality best; strong grower.

Each

4 to 6-ft. trees \$3 50

CHERRIES

Sweet Cherries

BLACK TARTARIAN. Late, large, black, tender, juicy. July.

Sour Cherries

MONTMORENCY. Largest and strongest grower of all sour Cherries. Red. June.

Each

4 to 6-ft. trees \$3 50

PEACHES

A well-drained, sandy loam with a clay sub-soil is ideal for Peaches. However, the Peach has the faculty of adapting itself to almost any soil, provided it is well drained.

GOLDEN JUBILEE. A high-quality, early, yellow, freestone Peach. Its value to eastern and southern growers cannot be estimated. A typical Elberta type fruit, highly colored, ripening before Carman or about four weeks before the regular Elberta.

BELLE OF GEORGIA. Ripens August 1 to 15. Fruit is large, white with red cheek; flesh white, firm, of excellent flavor. A rapid grower and very productive. One of the very best market sorts. Freestone.

ELBERTA. Midseason. A valuable Peach of good quality. Fruit large, yellow with red cheek, juicy and extremely high flavored; flesh yellow; freestone. The leading market variety. Ripens here about the middle of August.

Each
3 to 4-ft. trees \$2 50

PEARS

BARTLETT. Large, yellow, most popular. August.

KIEFFER. Large to very large; skin yellow with a light vermilion cheek. Flesh brittle, very juicy, of good quality. Begins to bear when three to four years old. One of the surest bearers.

SECKEL. Of delicious, sweet, melting flavor. A stout, slow grower. August.

Each
4 to 6-ft. trees \$3 00

PLUMS

ABUNDANCE. One of the oldest and best-known Japanese varieties. Hardy, productive. Fruit large, lemon-yellow with heavy bloom; good quality. July.

Each
4 to 6-ft. trees \$3 00

FIGS

ITALIAN. Large, sweet, firm fruit. Hardy. Fruit from July to frost.

Each	Each
2 to 3 ft. \$3 00	4 to 5 ft. \$7 00
3 to 4 ft. 4 50	

Not guaranteed against winter damage.

GRAFTED PECANS

Where soil and climatic conditions are proper, it has been practically demonstrated that Pecan growing is a paying investment, but only grafted or budded trees of well-known and meritorious varieties should be planted. We are offering only Stuart, which seems to be best suited to this section.

STUART. Nut large to very large; $1\frac{3}{4}$ to $2\frac{1}{8}$ inches long, with thin shell. Very good quality. Heavy bearer; excellent.

Each	Each
3 to 4-ft. trees \$5 00	4 to 5-ft. trees \$6 00

CHINESE CHESTNUTS

Blight-resistant variety. Edible nuts. Low, spreading tree.
3 to 4 ft.....Each \$4 50

GRAPES

No part of the fruit garden yields a richer harvest than the vineyard. Along almost any garden fence or walk there is room for vines enough to furnish luscious Grapes from July to November.

Black Grapes

CONCORD. Large bunch and berry; one of the best and most popular old sorts.

FREDONIA. Improved Concord. Large bunches. Sweet.

Red Grapes

CACO. A new variety which is proving to be one of the best. It is wine-red, with abundant bloom. The berries are very large; bunches medium in size, compact and of good form. Ripens almost with Concord.

White Grapes

NIAGARA. Bunch medium to large; berries large. Skin thin, with a whitish bloom; tender and sweet.

Well-rooted vines	Each	Doz.
Cash & Carry.....	\$0 75	\$7 50
